Attorney Docket No. P70555US0 Application No. 10/532,348

Amendments to the claims:

This listing of claims replaces all prior versions, and listings, of claims in the application.

Listing of claims:

Claims 1 and 2 (cancelled).

- 3 (new): A method for determining gastric emptying comprising
 - determining ¹³CO, content in exhaled respiratory air of a patient, followed by
 - orally administering to the patient free 13C-octanoic acid together with a standardized test meal, wherein the free 13C-octanoic acid is in a form bound to egg yolk, followed by
 - determining 13CO2 content in exhaled respiratory air of the patient, wherein body-related conversion factors are dispensed with.
- 4 (new): The method according to claim 3, characterized in that the test meal comprises a fried egg, into which fried egg the free 13C-octanoic acid is stirred, a slice of toasting bread, 5 to 10 g of margarine or butter, and 150 ml of water or coffee.

Attorney Docket No. P70555US0 Application No. 10/532,348

5 (new): The method according to claim 3, characterized in that ¹³C-octanoic acid is administered in an amount of about 40 mg to 100 mg.
